# Your Advantage for MEP Projects and More in Pet Food Facilities

## Where Experience Matters

**Multi-Craft Contractors has a proven record in the dry and wet food extrusion industries. We have completed numerous installations for multiple companies across the United States. We also provide creative solutions for all your packaging needs.**

**Below are examples of successful projects where we have applied our technical and professional expertise:**

### Horizontal Buhler Dryer Replacement

- Millwright
- Fabrication
- Mechanical Piping

### Replaced Horizontal Dryer with a Vertical Geelen Dryer

- Demo of old dryer
- Millwright
- Fabricated and installed access platforms and ducting system
- Mechanical Piping (including ATA Piping)
- Supplied and coordinated 210 Crane use for very challenging demo and installation

### New Plant Construction

- Emulsifier Module (Fabrication, Millwright, Mechanical Piping, Electrical)
- Fabricated Chunk Mezzanine
- Utility Piping – including all utility headers for 220,000 sf plant expansion
- Drops from Utility Piping
- Installed Power Distribution System
- Fabricated Hot Water Skids
- Installed SELO System and Supporting Equipment

### Other Expertise

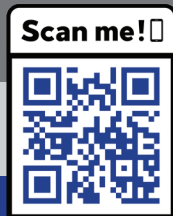

- Installed Retort WW System, Mixer, and Dehumidifier
- Supplied and coordinated 210-Ton Crane use for very challenging and time-constrained demo and installation

If you are looking to build or upgrade your existing plant – or just thinking about ways to improve – we want to help. So no matter what stage you're in, we can make the process smoother and your life easier. Contact one of our experts below to schedule a consultation.
