

Your Career Path as a Pipefitter

Why Become a Pipefitter?

- Top trade
- Pipefitters will always be in demand
- Competitive salaries
- Job security
- Nationwide opportunities
- Jobs are currently available
- Opportunity for career advancement

The Possibilities are Endless!

Becoming a Pipefitter may be an excellent career choice for you! There are more than 417,440 Pipefitters throughout the United States, and that number continues to grow every year along with job opportunities.

While most jobs may require four-year degrees, one of the big advantages of choosing a career as a Pipefitter is that the completion of a college or university program is not required to pursue the foundational skills for this trade. Instead, there are pipefitter training programs (such as apprenticeships) you can enroll in.

Supporting YOU Through MCCU!

When you join our team as an apprentice, we offer you resources that we've developed to help you throughout your career, here at Multi-Craft Contractors and beyond! Enrich your communication skills, team building, and even prepare for NCCER trade skill level assessments. Take advantage of additional opportunities such as mentorships, leadership development, and compliance safety training.
