Fabrication/Millwright
Control Panel Services
24/7 Services

COMPANY SNAPSHOT

Since 1972, Multi-Craft Contractors (MCC) has placed top priority on the success of our clients and our employees. With this as our charter, MCC has experienced steady growth and success through the years. We've grown from our start as a basic MEP contractor into a turnkey, design-build contractor, offering all major project trades under one company. Employing over 750 qualified craftsmen, designers, engineers, project managers and support personnel, MCC is equipped to deliver a total project solution from concept to completion. Not only does MCC have a "deep bench" of talent to focus on your project, we also have a broad knowledge/experience base to share with your design team. Take advantage of MCC's unique turnkey, design build offering and call us the next time you begin planning a time-critical shut-down, plant expansion or new construction project. We would be honored to work with you!

THE MULTI-CRAFT DIFFERENCE

GOLDEN RULE

We will always treat others the way we would like to be treated while maintaining accountability for our actions.

QUALITY

The people we have performing our work will be well qualified; the work we perform will be superior.

INTEGRITY

We will maintain our integrity as a company and as individuals at all cost. Our integrity is never worth so much as when we have parted with our all to keep it.

REINVESTMENT

The resources MCC has the opportunity to obtain are reinvested into the company so that they may be drawn upon when needed, to provide a lasting, sustainable company.

STEWARDSHIP

MCC and each individual will be useful in giving back to the community by providing value, being the advantage, and the resource that is necessary.
